User manual

You have purchased a product LIVOO brand and we thank you. We take great care in design, ergonomics and ease of use of our products. We hope that this product will give you complete satisfaction.
Please read the instruction carefully before operating.

This instruction manual is available too on our website www.livoo.fr

Please read these instructions carefully before using your kitchen scale. Keep the manual for any need for further reference.

1. This kitchen scale is for home use only. Any other use (medical or commercial) is excluded.
2. Always place the scale on a level, flat and stable. Do not place the balance on the edge of a table or work surface.
3. The balance is a precision electronic weighing machine: use it with care. Do not try to disassemble and avoid heavy vibration and shocks.
4. Do not push it, do not drop it, do not drop objects on the scale.
5. Do not store objects on the appliance.
6. Do not expose to direct sunlight. Keep it away from any heat and moisture.
7. Children shall not play with children.
8. Do not overload the balance (maximum capacity: 5 Kg).
9. If the result is displayed incorrectly, check the batteries and contact points are touching well. Replace the batteries if the scale has not been used for a long time and then try again. Check that the batteries are inserted correctly.
10. Avoid using the kitchen scale in places where magnetic fields would interfere with the information transmitted by the scale.
11. When you move the balance to a place with a temperature difference of more than 10 ° C, let it rest for at least two hours before the start.
12. Do not immerse in water or any other liquid or expose not to splash water.

Product Feature

- High precision strain gauge sensors system ensures more accurate weighing results.
- Max Capacity: 5kg
- Divison: 1g
- Tare function
- Auto power off
- Low battery and overload indication
- Weight units: g/oz/ml/lb.oz
- Powered by 2xAAA batteries

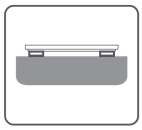
Buttons Functions

ON/OFF/TARE key: power on, power off and tare function
UNIT key: Unit exchange (g/oz/lb.oz))

Operation

1. Place the scale steadily on hard and flat surface. Clean table is the best.
2. Press the “ON/OFF” button to switch on the scale and it will get ready for use when the LCD screen shows “0g” after “full display”
3. Press the “UNIT” button and you can choose from the units: g/oz/ml/lb.oz
4. Put the container you want to weigh on the platform of the scale and the weight will be showed on the screen
5. Press the “ON/OFF” button to clear the weight of container and the screen will show “Tare” and “0g”. Then put the food into the container to weigh. Then press “ON/OFF” after each new added ingredient.
6. Long press the “ON/OFF” button to switch off the scale when the screen shows “0g” if no more weighing is needed or it will auto off if no further using within seconds.

Cleaning and Maintenance of the Scale



1. Place the scale on a solid level surface before use.
2. Avoid hitting or dropping the scale otherwise damage may occur.
3. Do not overload the scale or put heavy things on the scale when not use.

1. Treat the scale with care as it is a highly precise electronic instrument.
2. Do not immerse this product in water or any other liquid. Please keep dry surface.
3. Clean the scale with a soft damp cloth, do not use chemicals or harsh abrasives.
4. Be careful not to enter the water in the body of the device.

Correct disposal of the unit
(Electrical and Electronic Equipment)

(Applicable in the European Union and the rest of Europe that have adopted separate collection systems countries)

The European Directive 2012/19/UE on Waste Electrical and Electronic Equipment (WEEE), requires that old household electrical appliances must not be disposed of in the normal household waste stream. Old appliances must be collected separately in order to optimize the recovery and recycling of the materials they contain and reduce the impact on human health and the environment. The symbol of the crossed out dustbin is marked on all products to remind the obligations of separate collection. Consumers should contact their local authority or retailer for information concerning the correct disposal of their product.
