Instruction Manual

You have purchased a LIVOO brand product and we thank you for it. We give great attention to the design, ergonomics and ease of use of our products. We hope that this product will give you complete satisfaction.

This instruction manual is available too on our website www.livoo.fr

SAFETY INSTRUCTIONS

PLEASE, TAKE TIME TO READ WELL THE INSTRUCTIONS FOR USE PARTICULARLY BEFORE THE FIRST USE. A misuse of the appliance can damage it or hurt the user. Assure that you use the appliance for the use for which it is designed, we refuse any responsibilities as for the damages by an incorrect use or a bad manipulation.

1. Before connecting your appliance, verify that the supply voltage indicated on the indicator plate of the appliance corresponds properly to that of your electrical installation.
2. No responsibility may be assumed in case of damages caused by non-compliance of this manual by the user or by faulty use or handling.
3. This appliance is meant for ONLY DOMESTIC USE and FOR INTERNAL USE.
4. Use this appliance only as indicated in the instruction manual.
5. Before each use, ensure that the supply cord is in good condition.
6. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons (*) in order to avoid a hazard.

Instruction Manual

7. Never plunge the appliance, its supply cord or the plug in water or any other liquid.
8. Do not handle the plug on the appliance with wet hands.
9. This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
10. When you disconnect the supply cord, always remove it from the plug. Do not pull on the cord itself.
11. Unplug the appliance during filling and cleaning.
12. Do not use chemical products or abrasive detergents for cleaning, which may easily damage or deform your appliance.
13. Care should be taken when using the appliance due to the emission of hot water vapour.
14. Never try to disassemble or repair your appliance yourself. In case of repair by an unqualified person, the guarantee is cancelled.
15. For reducing the risk of electric shock, never use this product with wet hands, never spill a liquid on the product or submerge it in water.
16. Do not place the appliance on or near a hot gas or in a heated oven.

Instruction Manual

17. Never leave the appliance working without surveillance.
18. This appliance is not designed to be used with an external timer or a separate remote-control system.
19. Never use the humidifier without water
20. Never add detergent, chemicals or fragrances.
21. Always use cold water. We recommend you use distilled water to guarantee optimal operation of the appliance.
22. Do not leave water in the tank for long periods; this can lead to proliferation of bacteria.
23. Place the humidifier on a flat and stable surface, out of direct sunlight.
24. This appliance is intended to be used in household and similar applications such as:
 - staff kitchen areas in shops, offices and other working environments
 - farm houses
 - by clients in hotels, motels and other residential type environments
 - bed and breakfast type environments

(*)**Authorised qualified electrician:** after-sales department of the manufacturer or the importer or any other qualified person, approved and authorised for carrying out this kind of repair for avoiding any danger. In any case, you must send the appliance to this electrician.

SPECIAL SAFETY INSTRUCTIONS

Information :

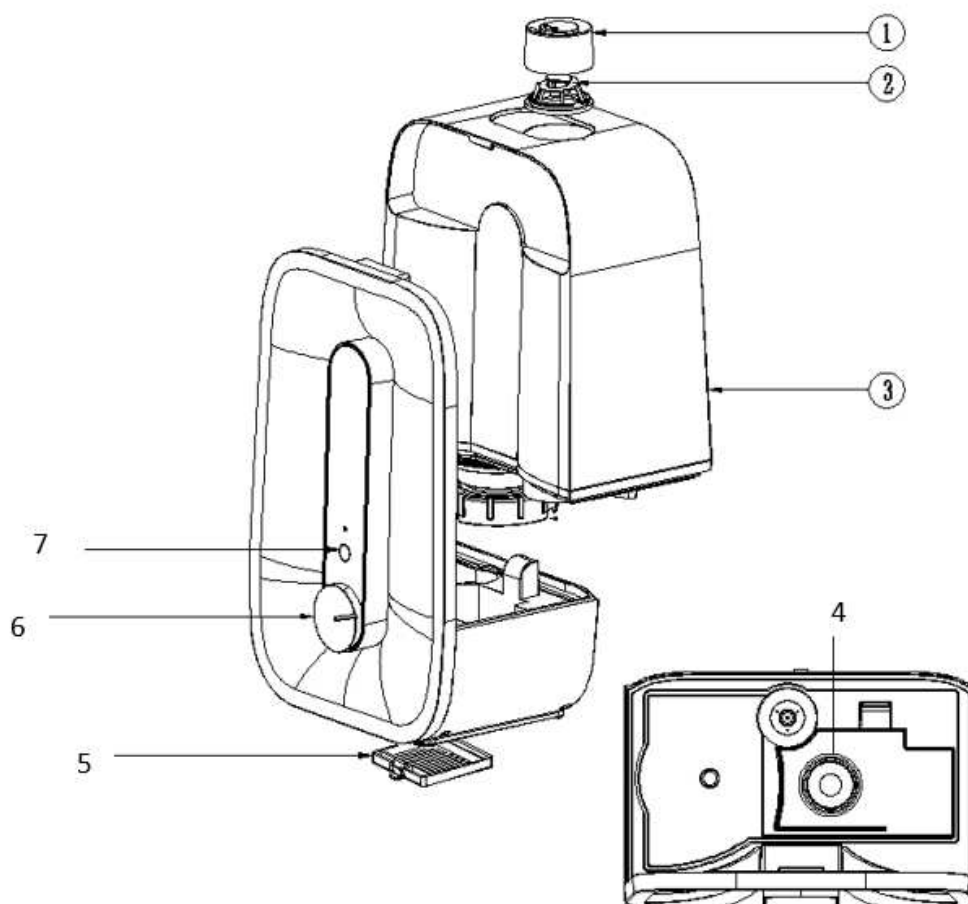

ATTENTION : Never pour essential oil into the water tank

Instruction Manual

TECHNICAL SPECIFICATIONS

Power: 220-240v~ 50-60Hz 23W

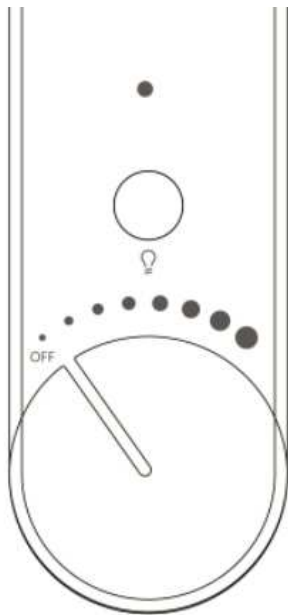

DESCRIPTION

1. Mist nozzle
2. Aroma Box
3. Water tank
4. Ultrasonic transducer
5. Ash damper
6. Control knob
7. Night light switch

Instruction Manual

CONTROLS/SETTINGS :

- _____ Power indicator/Water shortage indicator
- _____ Night light button
- _____ Power knob/Volume control knob

Before first use:

- Do not place this appliance near human body to avoid discomfort of human body
 - Do not place this appliance near wooden furniture to prevent furniture become damp and damages
 - Place this appliance evenly and keep distance from wall at least 30cm to keep it running normally.
- Attention: before use, please check ultrasonic transducer first. When ultrasonic transducer is damaged, do not use this appliance

USE

1. Be sure the humidifier is switched off (knob turned all the way to the left)
 2. Separate the tank from the base of the unit
 3. Turn over the tank and unscrew the Valve.
 4. Fill the tank with tap or distilled water
 5. Closed the valve tightly, then turn the water tank over and set on the humidifier base.
- N.B.: Wait a few seconds before the base of the humidifier is filled with water**
6. Plug your appliance into a wall outlet using the power cord.
 7. Turn the unit on, and turn the Volume Control knob clockwise, and the LED indicator would turn to green color. Turning the knob all the way to the right will produce the highest moisture. Turning to the left will produce lower moisture with longer run time.
 8. then point the vapor in the desired direction using the cover.
- N.B.: ensure that the vapor is not directed toward a wall socket or other electrical device.**
9. When the humidifier runs out of water, the LED indicator will turn to red, the transducer and fan will automatically shut off. Once the tank is empty, turn the Power Off and unplug the unit.
 10. There is an aroma box in the mist nozzle, you can open the nozzle and put few drops of essential oil in the sponge, then fix the nozzle. When the humidifier is turn on, the aroma would come out together with the mist.

Instruction Manual

CLEANING AND MAINTENANCE

Warning: before clean and maintain this appliance, do turn it off and pull out the plug. Make sure it is powered off to avoid electric shock!

1. Clean oscillating plate (see the red arrow on the picture on right side):

- Take out water tank of humidifier.
- Pour out residual water in the water sink
- Use clean brush to clean oscillating plate. Do not use household cleaners to clean oscillating plate which will affect its lifetime.

2. Clean outer appearance of humidifier:

- Power off and pull out the plug
- Wipe outside with soft, moist cloth
- Do not make water flow into inside of machine. It may cause damage on your machine and electric shock.
- After cleaning, place this appliance in ventilating place to make it dry (do not expose to sun). Only when machine is completely dry can you use it.

3. Descaling: Depending on water hardness, generally, the descaling should be done weekly or every other week to optimize unit performance

TROUBLESHOOTING GUIDE

PROBLEM	SOLUTION
Water vapor and humidity are not produced.	Power plug: Unplug and then try again. Power Failure: When the power is returned, try again. Tank Installation: Make sure the tank is correctly attached. Check if floating ball is assembled in proper place
Air blows but water vapor is not produced.	Excessive Water: Remove a certain amount of water from the tank.
The humidity has a bad smell.	Poor maintenance or dirty water: Clean the product thoroughly, and fill it with fresh water.
Unit has stopped working.	No or low water. Unplug unit and refill tank.

Instruction Manual

**Correct disposal of the unit
(Electrical and Electronic Equipment)**

(Applicable in the European Union and the rest of Europe that have adopted separate collection systems countries)

The European Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), requires that old household electrical appliances must not be disposed of in the normal household waste stream.

Old appliances must be collected separately in order to optimize the recovery and recycling of the materials they contain and reduce the impact on human health and the environment.

The symbol of the crossed out dustbin is marked on all products to remind the obligations of separate collection.

Consumers should contact their local authority or retailer for information concerning the correct disposal of their product.
