Instruction manual

Thank you to have purchased a product brand LIVOO. We take great care in design, ergonomics and simple use of our products. We hope that this product will give you complete satisfaction.

This instruction manual is also available on our website www.livoo.fr

To ensure proper operation and to maintain the lifespan of the scale please read this manual carefully before use.

SAFETY INSTRUCTIONS

PLEASE TAKE THE TIME TO READ THE OPERATING INSTRUCTIONS CAREFULLY BEFORE USING THE PRODUCT FOR THE FIRST TIME. Improper use of the device can damage it or injure the user. Make sure that you use the device for the purpose for which it was designed; we accept no liability for damage (compensation) due to incorrect use or mishandling.

1. This appliance is intended for domestic use only. Any other use (medical, professional, commercial, etc.) is excluded.
2. Children should be supervised to ensure that they do not play with the appliance.
3. Keep this appliance indoors and in a dry place.
4. Do not immerse the unit in water or any other liquid.
5. Do not store any objects on the scale.
6. To avoid risk of injury, do not stand on the edges of the scale.
7. To prevent slipping, make sure that your feet and the scale are dry and free of dust before getting on the scale.
8. Do not disassemble the scale.
9. Avoid strong vibrations or shocks, such as dropping the scale on the floor.
10. Always place your scale on a hard, level surface. Avoid carpets and rugs.
11. Do not use the scale on a slippery surface or on a wet floor.

Instruction manual

12. Keep the scale away from heat sources (radiators, etc.) to avoid deformation of plastic parts.
13. Do not store the scale in an upright position.
14. Use only the type of battery specified in this manual.
15. Replace the batteries when they are worn out or leak.
16. Remove the batteries if the appliance is not used for a long period of time.
17. Do not disassemble the scale as improper handling may result in injury to persons or damage to the scale.

SPECIAL MEASURES

Warning:

1. The scale is high precision measuring device. Never jump or stomp on the scale or disassemble it and please handle it carefully to avoid dropping when moving it.
2. The scale is for family use only and not suitable for professional use.
3. Please check the batteries if the scale malfunctions. Change new pieces if necessary. For other problems, please contact the local dealer or our company directly by phone or E-mails.

Information: To ensure accuracy, we suggest you take measurement at a fixed time every day (e.g. 7:00pm-9:00pm).

CLEANING AND STORAGE

Please use soft tissue with alcohol or glass cleaner to clean the surface if it is dirty. No soap or other chemicals. Keep it away from water, heat and extreme coldness.

DESCRIPTION

1. High precision strain
2. Strong glass platform
3. Capacity: 5 kg-180 kg
4. Division: 100g
5. Display
6. Auto on
7. Auto zero & Auto off
8. Backlight function
9. Low battery and over load indication.
10. Possibility to measure in kg
11. Battery function: 1 x 3V CR2032 (included)

Instruction manual

USING YOUR APPLIANCE

1. When using for the first time, remove the battery protection tab without opening the battery case.
2. Place the scale on a flat, solid surface, ideally on a clean floor.
3. Wait until the LCD screen is turned off.
4. Stand on the scale and the weight will be displayed
5. Stand upright on the scale. During weighing, the display will flash. Wait until it stops flashing. Your weight will be displayed for about 10 seconds and then the display will automatically turn off.

Caution

Please replace the batteries when "LO" appears on the LCD, indicating that the battery is completely discharged. To change the batteries, open the cover, install the battery in the compartment and close the cover (Make sure the positive pole of the battery is facing up).

"Err" showed on LCD indicates overload.

Disposal of batteries and accumulators (Applicable in the European Union countries and in the other European countries having systems of selective collection)

Correct disposal of the unit (Electrical and Electronic Equipment)

(Applicable in the European Union and the rest of Europe that have adopted separate collection systems countries)

The European Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), requires that old household electrical appliances must not be disposed of in the normal household waste stream. Old appliances must be collected separately in order to optimize the recovery and recycling of the materials they contain and reduce the impact on human health and the environment. The symbol of the crossed out dustbin is marked on all

products to remind the obligations of separate collection. Consumers should contact their local authority or retailer for information concerning the correct disposal of their product.
