

Soap dispenser with infrared sensor

Reference: SA109
Version: 1.4
Language: English

Thank you for buying our LIVOO product. We take great care in design, ergonomics and ease of use of our products. We hope that this product will give you complete satisfaction.

This instruction manual is also available on our website www.livoo.fr

IMPORTANT SAFETY INSTRUCTIONS

READ CAREFULLY ALL THESE INSTRUCTIONS BEFORE USING THE DEVICE AND PRESERVE THEM FOR ANY LATER NEED.

1. Please follow the rules depicted in this manual closely to ensure your safety.
2. Be more wary of any edges, uneven surfaces, metal parts, accessories and its packaging so as to prevent any possible injury or damage.
3. Keep this appliance out of reach of children. Take note that this appliance is not edible and should not be placed in your mouth.
4. Do not modify, repair or dismantle the appliance. Doing so may result in fires, electric shocks, complete breakdown of the appliance, etc. All of which, are not covered under warranty.
5. Do not use any diluents or volatile liquid to clean the appliance. Keep in mind that the surface of the appliance should only be wiped with a clean dry cloth.
6. Do not use this appliance in locations whereby there are high-temperatures or high humidity levels; ideally, the appliance should be used in locations free of dust and exposure to direct sunlight, as it may cause the infrared sensor to malfunction.
7. Do not insert foreign objects, such as pins, into this appliance.
8. Do not touch this appliance when your hands are wet as this may result in electric shocks.
9. Refrain from dropping the appliance as well any collision with other objects.
10. Should any abnormal situations or problems occur while using this appliance, discontinue use of the appliance immediately.
11. If the appliance is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard (*).
12. Use only the type of battery specified in this manual.
13. Replace the batteries when they are worn out or leak.
14. Remove the batteries if the appliance is not used for a long period of time.
15. Do not immerse the appliance or its bottom in water or any other liquid.
16. Do not place the appliance in dishwasher.

(*) qualified competent Person: technician of the after-sales service of the builder (manufacturer) or the importer or every qualified, authorized and competent person to make this type (chap) of repair.

WARNING

The following should be noted to ensure trouble-free operation:

- The hands-free liquid dispenser is designed to dispense standard liquid type product only. Foam liquids that contain peeling granules or small bit of fruit etc. must not be used as they could block the dispensing nozzle.
- Always place the liquid filled dispenser in an upright position on a level countertop.
- To avoid accidental dispensing of liquid, please install batteries before filling the dispenser tank.
- Do not mix water with the liquid soap, hand sanitizer or lotion etc.

Specifications :

Capacity of 220ml

3 adjustable levels of poured quantity

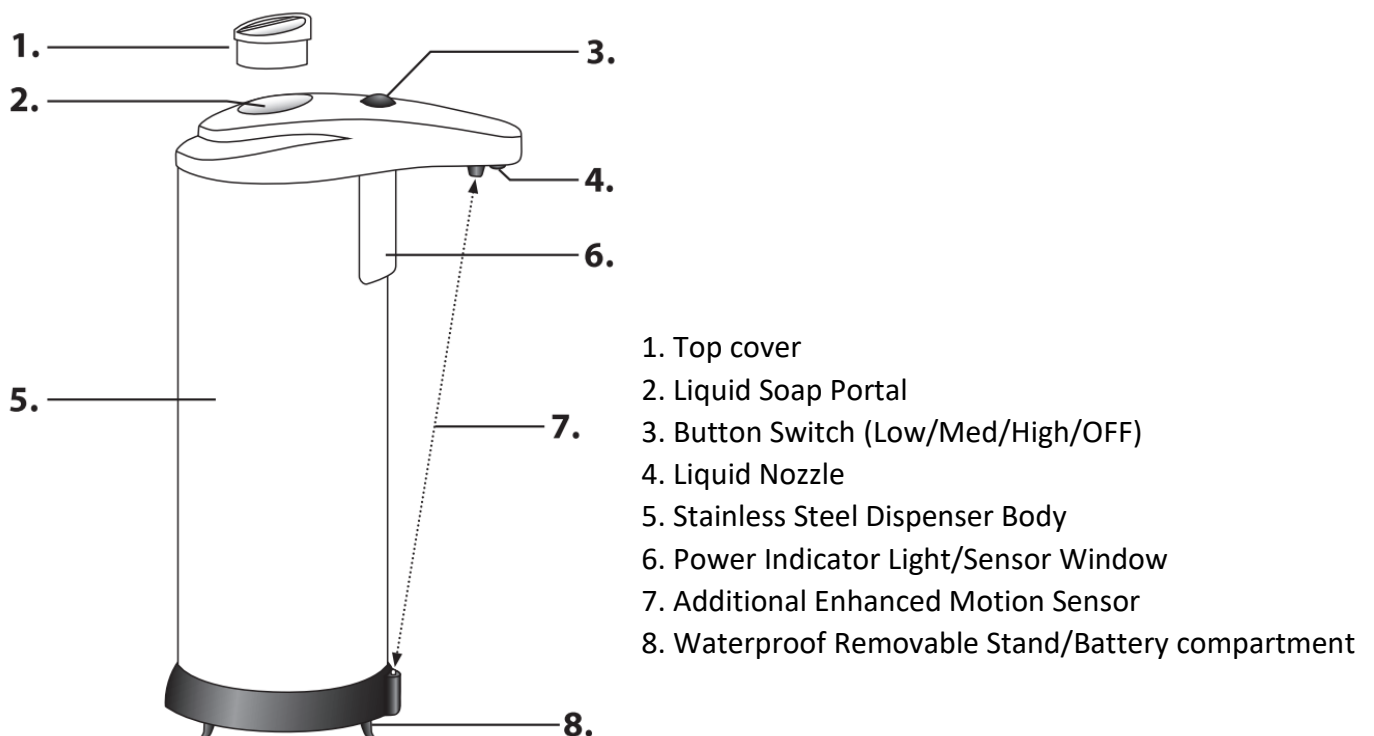

Powered by 4 x AAA (LR03) 1.5V batteries not included

Package contents :

1 x Soap dispenser with infrared sensor

1 x User Manual

PRODUCT DESCRIPTION

USE

Instructions

1. Place batteries (not included) in the battery compartment (8) as described in the section below “How to Install/Change Batteries”.
2. Screw off the top cover (1), fill container with liquid to the required level. The liquid should not contain any solid particles.
3. Press and hold the button switch (3) for three seconds until the indicator light (6) turns red, indicating that it is on and set for low volume dispensing.
4. Pressing the button (3) again will change the dispensing to medium volume.
5. Pressing the button (3) a third time will change the dispensing to high volume. Pressing it again will cycle back to low volume.
6. Place your hands under the liquid nozzle (4). The indicator light (6) will turn red then the liquid dispensing will start automatically (the dispenser will release liquid during preset time).
7. Turn off the dispenser by pressing the button (3) for 5 seconds or until the indicator light turns off.

How to install/Change Batteries

1. Turn over the liquid dispenser to expose the battery compartment located at the base (8) of dispenser.
2. Open the battery compartment by removing the cover.
3. Insert 4 (AAA) batteries making sure polarity is correct (+/-).
4. Close the battery compartment by replacing cover.
5. If you do not intend to use the dispenser for an extended time, please remove all the batteries from the battery compartment.

Battery Advice and recycling

* Keep the battery out of each of children.

* Do not mix old and new batteries, with different compositions or of different brands in order to prevent possible leakage, explosion.

* Do not heat or deform the batteries or expose to fire.

* Waste batteries should not be disposed of with household waste.

* Please check with your local authority for battery recycling advice.

Do not dispose of batteries with household waste. To preserve the environment, dispose of batteries according to regulations. Put them in the nearest battery container or bring them into your store. Do not recharge the batteries, do not disassemble, do not throw them into the fire. Do not expose to high temperatures or direct sunlight. Do not incinerate.

**Correct disposal of the unit
(Electrical and Electronic Equipment)**

(Applicable in the European Union and the rest of Europe that have adopted separate collection systems countries)

The European Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), requires that old household electrical appliances must not be disposed of in the normal household waste stream. Old appliances must be collected separately in order to optimize the recovery and recycling of the materials they contain and reduce the impact on human health and the environment. The symbol of the crossed out dustbin is marked on all products to remind the obligations of separate collection. Consumers should contact their local authority or retailer for information concerning the correct disposal of their product.
