Instruction Manual

Thank you for buying our LIVOO product. We take great care in design, ergonomics and ease of use of our products. We hope that this product will give you complete satisfaction.

This instruction manual is also available on our website www.livoo.fr

IMPORTANT SAFETY INSTRUCTIONS

BEFORE USING THE APPLIANCE FOR THE FIRST TIME, PLEASE READ CAREFULLY THESE INSTRUCTIONS BEFORE USING THE APPLIANCE AND SAVE IT FOR ANY FURTHER NEED.

- Do not use other cable than that supplied with the product.
- In case of dysfunction, entrust your wireless charger to a specialist.
- No pieces can be repaired or replaced by the user.
- Any signs of wear and tear please discard immediately.
- Maintain your product shielded from dust, rain, water or from humidity.
- Do not subject your product to sources of inflammation or important heat. Do not throw it to the fire.
- Do not place the wireless charger near magnets.
- Maintain your product out of reach children.
- Wipe clean with a damp cloth only. Do not use detergents.

SPECIFICATIONS

USB Input : 5V $\overline{=}$ 2A ; 9V $\overline{=}$ 2A ; 12V $\overline{=}$ 1,67A

USB Output : 5W/7.5W/10W/15W

Frequency : 108.8 kHz – 160.4 kHz

RF Field Output : 15W Max

Charging Efficiency : $\geq 65\%$

Charging Distance : ≤ 6 mm

Package included:

1x Wireless Charger

1x USB/Type C cable

1x User Manual

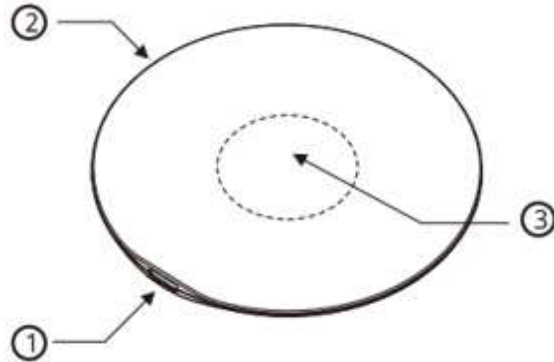

Introduction

The wireless charger is an intelligent product, with simple design and compatible with any mobile phones with Qi standard. Mobile phone is without plug when charging, which is more convenient. If your mobile is not Qi you can still enjoy this product by using the wireless receivers (not included).

Instruction Manual

DESCRIPTION

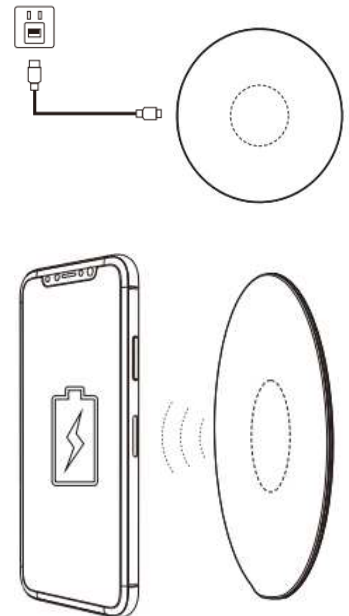

1. Input port
2. LED indicator
3. Transmitter

GENERAL OPERATION

Instructions

1. Insert one end of USB charging cable (included) into power adaptor or computer.
2. Insert another end of charging cable into Type C port of the wireless charger. The LED indicator lights up in red, indicating the charger is now ready to use.
3. If your mobile is not equipped with Qi technology, please select the correct receiver (not included) and plug the compatible receiver on the proper input of your phone.
4. Place your phone onto the wireless charger. When the mobile is being charged, the LED indicator will light up automatically in blue. Your device is now charging.
5. When your mobile device is fully charged, the blue and red light indicator switch off.
6. When the red LED or blue LED indicator flashes quickly, that means there is improper operation.
7. Disconnect the wireless charger after use.

Notes

1. If the transmitter is working improperly, clean the clutters on the wireless transmitter.
2. If the wireless transmitter is over-heating, take your mobile away from the device. Let the transmitter cool down before trying to charge the mobile again.
3. If the wattage of the power adapter you use needs more than 7.5W, we suggest you use the adapter with 5V $\overline{=}$ 2A output.
4. It's normal that the charger and mobile phone get hot under operating conditions and it may be even hotter when charging and using at the same time (like listening to music for example).

Instruction Manual

**Correct disposal of the unit
(Electrical and Electronic Equipment)**

(Applicable in the European Union and the rest of Europe that have adopted separate collection systems countries)

The European Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), requires that old household electrical appliances must not be disposed of in the normal household waste stream.

Old appliances must be collected separately in order to optimize the recovery and recycling of the materials they contain and reduce the impact on human health and the environment. The symbol of the crossed out dustbin is marked on all products to remind the obligations of separate collection. Consumers should contact their local authority or retailer for information concerning the correct disposal of their product.
