User manual

Thank you to have purchased a product brand Livoo. We take great care in design, ergonomics and simple use of our products. We hope that this product will give you complete satisfaction.

PLEASE READ ALL INSTRUCTIONS CAREFULLY

This instruction manual is also available on our website www.livoo.fr

SAFETY INSTRUCTIONS

The product is not suitable for children under 3 years because of choking hazard.

Contains small parts, in order to avoid swallowing, please ensure any use by children is undertaken with adult supervision.

Do not expose the device to abnormally high or low temperatures. Store the device cool (at room temperature) in a dry and dust-free location and never expose the product to high temperatures or direct sunlight. This product is not suitable for use under water or in wet conditions. Please ensure your gimbal is kept dry at all times.

If you think this product is damaged in any way, please do not use the product.

To avoid the risk of electric shock, do not insert the power cord with wet hands.

Ensure the gimbal is not obstructed during use as this may lead to damage of the internal motor mechanism.

Please dispose of the waste and residues at the end of the service life of the product according to local laws and regulations.

In the unlikely event of overheating, smokes or unpleasant odors coming from the unit, disconnect it immediately from the charging cable.

Never attempt to access or replace the built-in battery.

Protect the product from falls, shock and impact.

MAIN SPECIFICATION

Charging: Type C: DC5V 1A

Battery: 2800 mAh

Mechanical Angle: 360degree Horizontal rotation

15degrees vertical flip up

15degrees vertical downward flip

User manual

operation. The first human body to be followed is given priority in multiplayer scenes. Please note, 1-5 meters is the recommended distance to use for best results.

Correct disposal of the unit

(Electrical and Electronic Equipment)

(Applicable in the European Union and the rest of Europe that have adopted separate collection systems countries)

The European Directive 2012/19/UE on Waste Electrical and Electronic Equipment (WEEE), requires that old household electrical appliances must not be disposed of in the normal household waste stream. Old appliances must be collected separately in order to optimize the recovery and recycling of the materials they contain and reduce the impact on human health and the environment. The symbol of the crossed out dustbin is marked on all products to remind the obligations of separate collection. Consumers should contact their local authority or retailer for information concerning the correct disposal of their product.
