CLEANING AND MAINTENANCE

Wipe your cable with a dry cloth.

If not use, store in a dry place away from dust and humidity.

**Correct disposal of the unit
(Electrical and Electronic Equipment)**

(Applicable in the European Union and the rest of Europe that have adopted separate collection systems countries)

 The European Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), requires that old household electrical appliances must not be disposed of in the normal household waste stream. Old appliances must be collected separately in order to optimize the recovery and recycling of the materials they contain and reduce the impact on human health and the environment. The symbol of the crossed out dustbin is marked on all products to remind the obligations of separate collection. Consumers should contact their local authority or retailer for information concerning the correct disposal of their product.
