CORRECT DISPOSAL OF THE UNIT

Disposal of batteries and accumulators (Applicable in the European Union countries and in the other European countries having systems of selective collection)

This symbol, affixed on batteries and accumulators or on packaging, indicates that batteries and accumulators supplied with this product must not be treated as simple household waste.

By assuring you that these batteries and accumulators are discarded in a appropriate way, you participate actively in the prevention of the negative consequences which their ill-treatment could cause on the environment and on the human health. The recycling of materials contributes besides to the conservation of natural resources.

For the products, which, for safety reasons, of performance or integrity of data require a permanent connection in a battery or in an accumulator, it will be advisable to move closer you to check with technical service qualified to make its replacement.

By bringing back your electric device at the end of life to an appropriate point of collection you make sure that the battery or the incorporated accumulator will be correctly treated.

For all other scenarios and to remove battery or accumulators in complete safety of your appliance, refer to the user manual. Bring back batteries or worn accumulators to the point of collection suited for the recycling.

For any further information about the recycling of this product or batteries and accumulators, you can contact your municipality, your local waste reception center or the point of sale where you bought this product.

**Correct disposal of the unit
(Electrical and Electronic Equipment)**

(Applicable in the European Union and the rest of Europe that have adopted separate collection systems countries)

 The European Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), requires that old household electrical appliances must not be disposed of in the normal household waste stream. Old appliances must be collected separately in order to optimize the recovery and recycling of the materials they contain and reduce the impact on human health and the environment. The symbol of the crossed out dustbin is marked on all products to remind the obligations of separate collection. Consumers should contact their local authority or retailer for information concerning the correct disposal of their product.
