FUNCTION KEYS

USE

Charging the earphones

Before the first use, charge the battery completely.

In order to charge the earphones, you need to use the charging box.

Place each earphone into a slot. They will switch off automatically.

If the box is charged, the earphones will immediately start charging, which is indicated by a red LED light on the earphone.

If the charging box is not charged, charge the box as per the instructions below.

When the earphones are fully charged, the red LED light will turn off.

When the earphone battery is low, the LED light is flashing in red, you can hear a low voice prompt every 2 minutes.

Charge the charging box

To charge the charging box, connect the small end of the Micro USB charging cable to the Micro USB port, with the large USB port into computer's USB port or an AC adaptor (not included).

Power On

When earphones are in the charging case, press the charging button, led light bright and earphones switch on.

Automatic pairing

When the charging case indicator light bright, take out the earphones, they will power on and pair automatically after the indicator light flash in red/blue color for 1-2 seconds.

Activate your pairing device's Bluetooth[®]. Search for "TES233" and select it to connect.
