User manual

Thank you for buying our LIVOO product. We take great care in design, ergonomics and ease of use of our products. We hope that this product will give you complete satisfaction.

This manual is also available on www.livoo.fr

GENERAL INSTRUCTIONS

PLEASE TAKE TIME TO READ WELL THE INSTRUCTIONS FOR USE PARTICULARLY BEFORE THE FIRST USE.

A misuse of the appliance can damage it or hurt the user. Assure that you use the appliance for the use for which it is designed; we refuse any responsibilities as for the damages by an incorrect use or a bad manipulation.

- Before using the appliance for the first time, please read carefully these instructions and save it for any further need.
- Keep this product away from water, liquids or humid areas.
- Keep this product away from naked flames such as candles.
- The unit comes with a rechargeable battery so please do not throw it into fire to avoid explosion.
- The product should only be supplied by the power source indicated on the label.
- Do not place the product in direct sunlight or heat. Keep away from temperatures over 40°C.
- Do not press the buttons too hard as it could damage the product.
- Do not use a wet cloth on the product. In order to clean it, always use a dry cloth. Keep it free from dust.
- Do not use chemicals on this product.
- Never attempt to repair this product yourself. Any operation that requires opening the product should be left to a qualified technician.
- When the product is not in use, make sure it is shut off and stored in a cool and dry place.
- Do not insert any foreign object into the product.
- Adult Supervision is recommended with children using this product.
- Avoid dropping or standing on the product, as harsh impacts could damage the product.
- Make sure children and infants do not play with plastic bags or any packaging materials.
- Please follow the instruction to operate.
- Please charge the headphone with input power below 5V/1A in order to protect the battery.
- Please store or use the headphone in a normal temperature environment.
- Please keep away your headphone from heat source such as radiator, hot air regulators, stoves or other heat generating instruments. As it is not anti-high temperature.
- Don't jam the ports of the appliance such as charger port, LED port and microphone etc.
- In order to protect your hearing and extend the speaker service life, it is not recommended to adjust the volume to the maximum level for a long time.
- Whatever reasons damage the headphone, please feel free to contact our after sales staff in time rather than repair by yourself.

User manual

Correct disposal of the unit (Electrical and Electronic Equipment)

(Applicable in the European Union and the rest of Europe that have adopted separate collection systems countries)

The European Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), requires that old household electrical appliances must not be disposed of in the normal household waste stream. Old appliances must be collected separately in order to optimize the recovery and recycling of the materials they contain and reduce the impact on human health and the environment. The symbol of the crossed out dustbin is marked on all products to remind the obligations of separate collection. Consumers should contact their local authority or retailer for information concerning the correct disposal of their product.
